

PEARLMAN

redefining energy efficiency

Testimonial

Pearlman Technologies Ltd have worked with Kennett Insurance Brokers Ltd for over a year now and are delighted with the work carried out so far. Pearlman Technologies Ltd is a specialist Energy Assessment company that also designs, supplies and installs revolutionary technology much of which is a new concept and notoriously difficult to insure.

The challenge we present to Kennett Insurance Brokers is not an easy task to accomplish so all project work needs to be of the highest quality, thorough and timely which is what we get with Kennett Insurance Brokers. They are responsible for Pearlman Technologies Public Liability Insurance, Employers Liability Insurance, Vehicle Insurance, Professional Indemnity Insurances and Product Liability Insurance, we have even used them for our Personal Travel Insurance and we will be extending to include Business Travel Insurance. Kennett Insurance Brokers Ltd and particularly David Holmes understand the high standards that our company have and are most efficient in delivering these expectations well within time limits.

I would highly recommend working with them.
