

Mark Richardson Kennetts Insurance
Testimonial of work

Just the word `insurance` is enough to make most people wince, let alone actually paying for any!

Then there's the type , Professional Indemnity, Public Liability , Buildings and Contents, Car, and dare I say it Pet insurance.

What to choose and more importantly who to choose. Because you have to really trust in your insurance broker to get you the very best deal they can, on both price and what is right for you.

I recently had some of those very questions in my head when looking for the right insurance for Prism Fire and Workplace Safety. Luckily for me sat along the table was Mark Richardson of Kennetts Insurance Ltd.

Mark had been invited as a guest to the Wolds and East Yorkshire BNI Chapter and from the first instance I got his passion and drive for his job and industry.

Passion and drive in insurance? I thought I was bad with fire safety!

However I am so glad that he is, because within a few hours of us both discussing my insurance needs he had an arrangement in place perfect for me and which in his own words literally `smashed it` when it came to likewise quotations from other brokers.

Just to say I now have both my Professional Indemnity and Public Liability Insurance with Kennett's and will be looking to expand on IT security cover with them in the near future.

So thank you Mark, I have no hesitation in recommending you to all my friends and professional colleagues knowing that you are always happy to `smash` them too.

A handwritten signature in black ink, appearing to read "Tony Bolder". The signature is fluid and cursive, with a long horizontal line extending to the right.

All the very best

Tony Bolder
